

Twenty-One Day Fast: Day Eleven

Eminent Domain

by Julie Collins

Something happened that stirred up an area in my life where I knew the enemy dwelt. I allowed this battle to rage in my mind for about 12 hours. I asked for help and knew I would receive some encouragement from somewhere, but didn't know where----the Word, Prayer, in the night as I sleep, from a brother or sister? Then this word came to me on the way to church: "Eminent Domain" is what I heard----then the following: There is a Heavenly Eminent Domain...

"...you have the right, authority, and power to take back into the Kingdom of God those areas that you have allowed the enemy to enter and indwell. He has used this tactic far too long. It's time that you see who you are in Me and how I have made you able to do this by the power of the Holy Spirit in you. Step onto the land you relinquished and take it back. I have revoked this law from the enemy, but you must know and act on this truth."

Eminent: superiority in rank or power.

Domain: a territory over which dominion is exercised.

I knew that the sooner I addressed and took dominion over the powers and principalities that were "bugging" me, then the sooner I would be back on my "eternal" land, seeing with my "eternal" perspective and hearing the Lord instead of the voices of despair.

I know I am not alone in this. I want to petition the One who sees us and knows the domains we need to recover for Him.

Colossians 1:13 tells us that we have been rescued from the domain of Satan's rule and transferred to the Kingdom of Christ.

I Corinthians 2:16 tells us that we have the mind of Christ.

Colossians 2:7 tells that we are firmly rooted in Christ and are being built up in Him.

I Corinthians 2:12 tells that we have received the Spirit of God that we might know the things freely given to us by God.

I Peter 1:2 tells that we have been given precious and magnificent promises taking on His nature.

I AM A HEAVENLY WORK IN PROGRESS

PRAYER POINT: Lord, give us understanding and authority to take back into the Kingdom those areas that we have allowed the enemy to enter and dwell.
